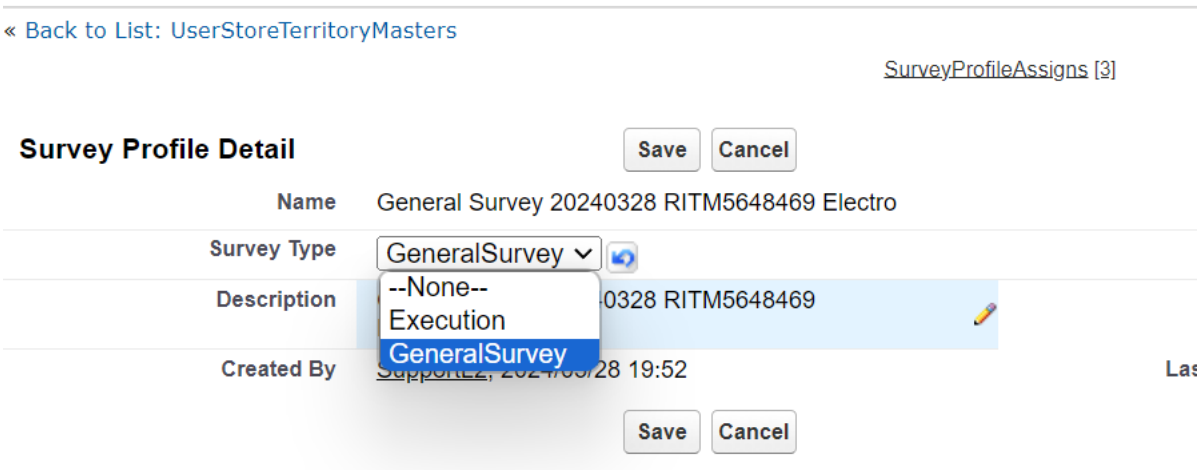
All the steps are same as ADHOC survey except the Profile creation and adding Account group .

Survey Profile Creation , Here we can see in Adhoc Survey we choose execution but in General Survey we would be choosing “General Survey”



AEAM記入必須	AEAM記入必須	AEAM記入必須		AEAM記入必須	AEAM記入必須

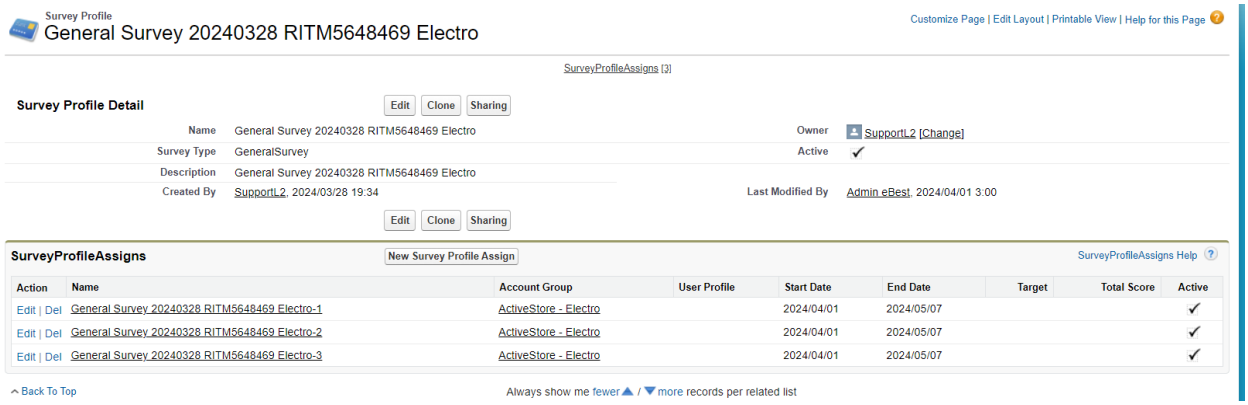
All CHQs	4月調査③FHR展開		電動FHR	IPLのPL７定番展開場所	Multiple choice(Single answer)

As we can see above there are 3 different Survey Group ,Hence 3 different survey profile assign should be created with 3 survey group .

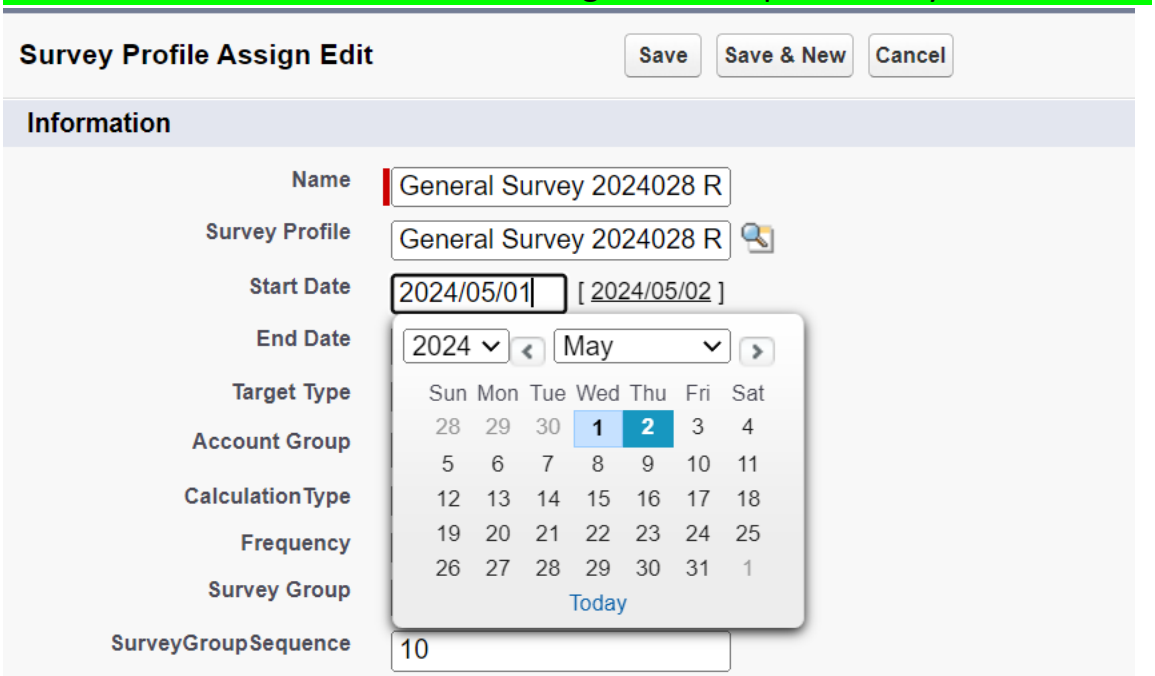
General Survey Profile.



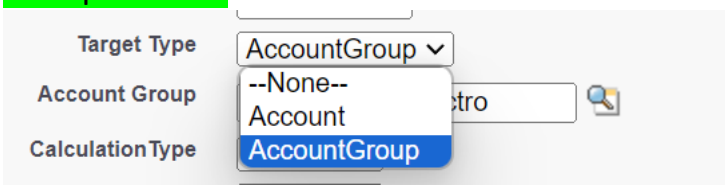
Example:

1)SURVEY GROUP：４月調査①BMG

- Start and End Date should be according to the file provided by the business.



- Target Group Would be Account group as this survey should be visible to multiple users.



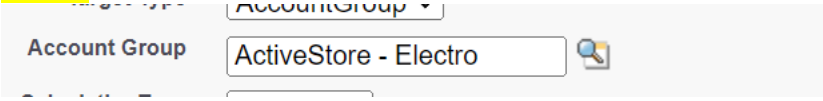
- Account group would be according to the File provided by the business.

CHQ ID	CHQ名	サーベイ名(Survey Group)	テニ	Category	stion Ca	uesiton (
All CHQs	All CHQs	5月調査①BMG		電動シェーバー		
All CHQs	All CHQs	5月調査①BMG		電動シェーバー		
All CHQs	All CHQs	5月調査①BMG		電動シェーバー		
All CHQs	All CHQs	5月調査①BMG		電動シェーバー		
All CHQs	All CHQs	5月調査①BMG		電動シェーバー		
All CHQs	All CHQs	5月調査①BMG		電動シェーバー		

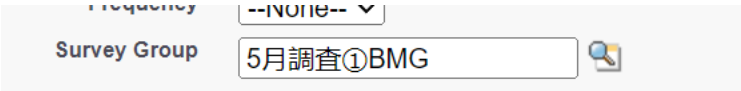
- ACCOUNT GROUP
- AEAM記入必須

CHQ名
All CHQs

- As we can see General survey Doesn't have RTLIST tab , instead there is a column name as CHQ ID which has CHQ ID for Each question.
- Here "ALL CHQs" means "ActiveStore - Electro", Hence all survey profile should have "ActiveStore - Electro" as account group.



- For Survey Group we will provide "5 月調査①BMG" as the data given by the business.



- *Note the data provided in the screenshot can be different but the process would remain same for all data.*
- Completed Profile assign Data.

Can repeat the same process two more time for Survey profile assign creation. All data would remain same apart from name and Survey group.

2)SURVEY GROUP: ４月調査②電動歯ブラシ展開

After creating survey profile and survey profile assign the remaining process of creating “UAT” , “PROD”,”QUESTIONS”, “ANSWERS” would be exactly the same like Adhoc survey.

After uploading the Survey Templates , our next action would be to validate the data in SFDC whether the changes have been made in Backend or not.

Steps for validation:

1. After the Template data has been uploaded please copy every survey profile assign “ID” and check the template of the profile assign.

After Checking these Make sure the survey is activated one day before Survey start date , after business hours.

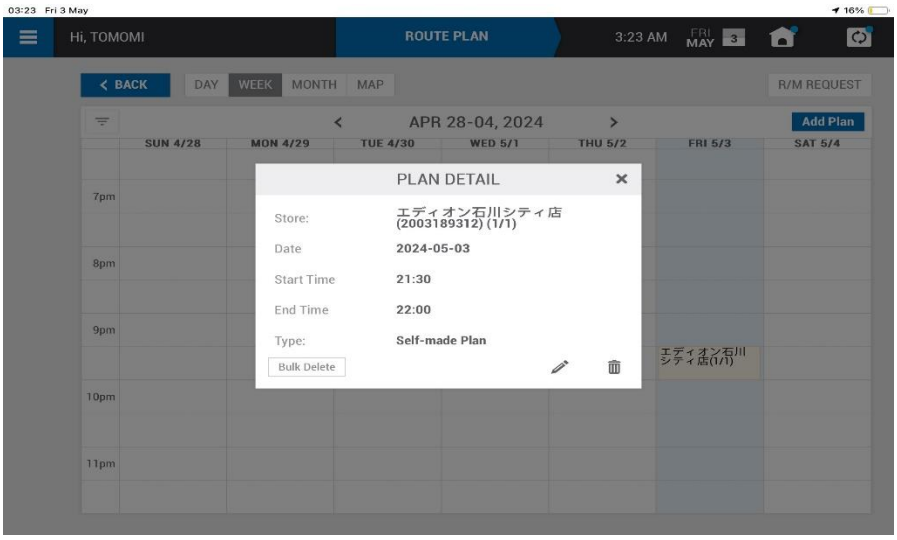
Target	
Active	✓

NEXT ACTION ITEM:

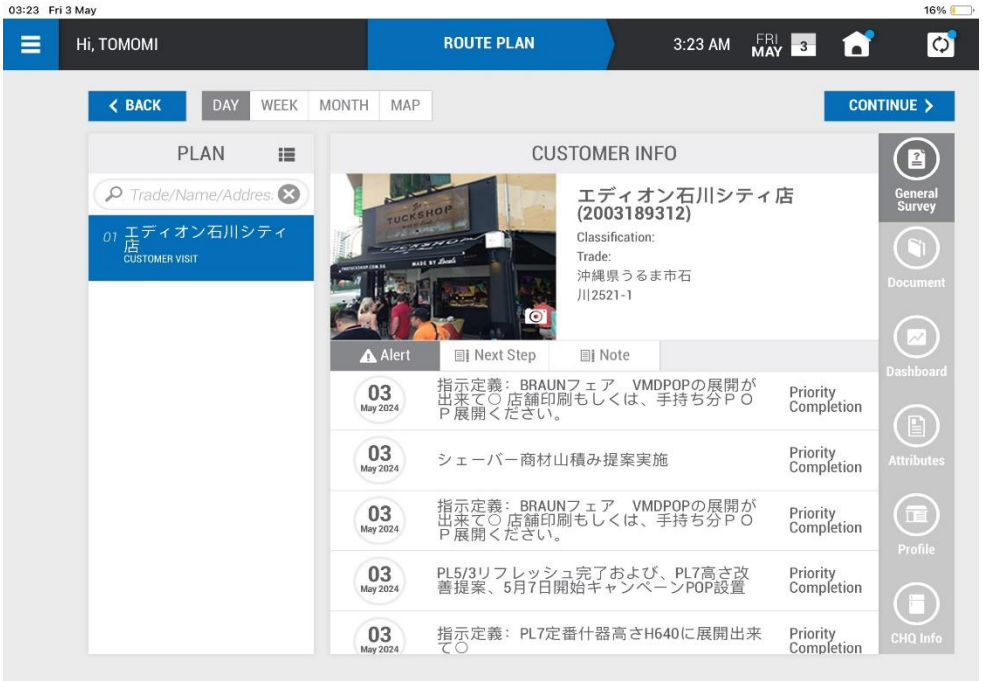
DISPLAY CHECK ON IPAD

1)open the Account group provided by the business and take any one user for IPAD check.

2)Once logged-in, please add a route plan of the particular account.



3.As this is just a general survey we don’t need to visit the store hence we can open Survey without Starting the call.



4.Once we enter the General Survey, user should be able to view multiple tabs related to the General survey.

5.Upon logging in Open the Raw excel data and check whether the questions and answers are as per the document.

IMP Tabs and Details to look for

1. Matching the Question's with Raw data.
2. Matching Answer's and sequence Question Sequence.
3. Making sure the survey Tab is correct.
4. Total count of Questions.
5. Try to select some answers and make sure the Answer Tab should go green.
6. For "SimpleCheckbox_inline" answer type the User should be able to able to choose only One option and for one question.
7. For "MultipleCheckbox_inline" answer type the user should be able to select multiple answer options for one question.

After verifying ,repeat the process for all other general survey. If no issue found then you can go ahead with deployment in production.
